

PATIENT REFERRAL SUMMARY

Date: January 20, 2026

To: Treating Physician / Specialist

Re: Medical Report Finding Summary

Dear Provider,

The patient has processed their medical records through an AI screening tool. The following summary highlights key findings, abnormalities, and potential risks extracted from the documents. This summary is intended to facilitate your review.

Key Clinical Findings

Patient shows elevated cholesterol levels and mild anemia.

Identified Abnormalities / Risks:

- LDL > 160 (Moderate Risk)
- Hemoglobin slightly low (Observation)

Thank you for reviewing this patient's case.
